

MINICLIP.COM

Java Developer

THE POSITION

Miniclip.com are looking for a **Java Developer** to hire in our **Tallinn (Estonia) Games Development Studio**. This is a full-time position and will initially be on a 6 month fixed term contract; please apply only if you can work in Tallinn.

DUTIES

Your primary responsibilities will be:

- Develop and maintain Java applications
- Develop and maintain SQL Databases
- Server Administration
- Document all work for both internal and external use

SKILLS AND EXPERIENCE REQUIRED

We're looking for a social, hard-working person who enjoys working in a team with other people and is passionate and dedicated about his/her work. The ideal candidate will be strongly skilled in, and have had previous professional experience with:

- Java, specifically server side experience
- Multiuser Games/Applications
- SQL
- OOP (Object Oriented Programming)
- Using a revision control system (such as SVN)

Professional experience with the following is desirable but not essential:

- Server Administration, specifically multiuser servers such as Smartfox
- Database design
- Hardware design including Server Clustering
- Network Communication/Encryption/Security
- TRAC
- AMF/PHP
- Actionscript 3

CONTACTS

Please send your CV (in English) and examples of your work to Kirke Altrov, Manpower OÜ, e-mail: kirke.altrov@manpower.ee. latest by 27th September 2009.

Applicants who don't send examples of their work/code in the relevant areas or a link to an online portfolio with examples of their work won't be taken into consideration.

ADDITIONAL INFORMATION

You will be working in a very friendly and relaxed atmosphere together with other highly skilled developers. The Miniclip Group's headquarters is in Switzerland with offices in London (England), Miami (US) and Tallinn (Estonia) and contractors across the globe.

THE COMPANY

Miniclip.com is the world's largest website dedicated to playing online games with 50 million unique users per month. Miniclip.com games are the most played online games and are syndicated across more websites than any other games. Miniclip.com games are extremely popular because they are fun, free, high quality and easy to use. They include the full range from casual games to hard-core massive multiplayer games. Miniclip.com is one of the world's top broadband websites with 98% of its users on high bandwidth connections. The Miniclip.com was launched in 2001, has experienced explosive growth and is the largest privately held entertainment website.
